MAXIMIZE YOUR REVENUE

Do you have a pub, restaurant or coffee shop with an outdoor area that only gets used by customers during the summer or never gets used at all? Would you like to make use of that outdoor area with happy paying customers for up to 9 months of the year? Well you can with a Bratislava.

Bratislava enclosures will attract new customers as well as old into your establishment. Bratislava enclosures take customers outside, secure and protected from the elements by their transparent structure. Bratislava enclosures are easy to maintain. Bratislava comes with a choice of 6 different colour profiles. Bratislava enclosures offer a wonderful ROI.

Your customers will love the Bratislava especially during warm days, as they will literally be able to take the roof off.

BENEFITS

- Extended use of outdoor space (up to 9 months of the year)
- Protects your customers from adverse weather conditions
- Fully lockable, safe and secure
- Attractive environment for clients
- Eliminates noise and dust pollution
- Easy slide and glide system
- Fast return on investment

TELESCOPIC PATIO ENCLOSURE Bratislava

TELESCOPIC PATIO ENCLOSURE BRATISLAVA

Ideal solution for patios and balconies

OPTIONS

Every Bratislava enclosure is tailor made to each client's needs.

CONSTRUCTION

Enclosures are made of aluminium profiles available in six colours (silver, white, beige, anthracite, bronze and wood effect). Glazing used in the structure is either safety glass or polycarbonate.

REDUCING HEATING COST

Polycarbonate and safety glass properties minimize heat loss within the structure. With easy slide and glide segments, the BRATISLAVA is ideal for all weather conditions. The design of the BRATISLAVA also forms a protective insulation barrier to any adjoining building.

EASY AND QUICK INSTALLATION

All our installation engineers are fully trained. We do not use third parties. Our installation engineers will endeavour to complete your installation within the shortest possible time, with the minimum amount of disruption and fuss.

DURABILITY

The structure is made from grade A quality non-corrosive aluminium as standard. The structure is powder coated forming a protective barrier around the profiles.

EASY TO MAINTAIN

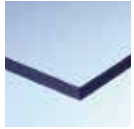

Aluminium structure can be washed with water, doors, lock and locking systems needs to be oiled once or twice a year (WD40 or similar), if safety glass is used clean as you would your home windows.

SUN SHADE

Sun shade blinds available on request.
